

Panhandle State Bank
and its locally operated divisions
Intermountain Community Bank
Magic Valley Bank

Mission Statement

Engaging local leadership to create community-based economic prosperity.

Why Powered by Community?

Powered by Community is a bridge, bringing information to questions, expertise to inexperience and resources to needs. The goal is to encourage the community to collaborate for greater success by identifying resources, such as seed money, technology and leadership, and making these available where and when they are needed.

Powered by Community Works!

Working in isolation is seldom fun, or as productive as it could be. We all have something to offer as well as something we need. By sharing our passion for successful, sustainable communities, we can open the door to ongoing prosperity that is developed to our unique circumstances and goals.

Powered by Community Initiatives for 2010

The best ideas and most passionate leadership have come together to address three key areas that are offering the greatest impact in our community:

Doing Well while Doing Good

Charitable organizations are learning new ways to compete for funding dollars and fulfill their missions with hands-on, practical guidance through Powered by Community – an initiative developed with your goals in mind.

Women & Money

Women's financial security depends on the choices we make for ourselves. Learn how you can make a real difference in your own life and in your community through "Powered by Community" – an initiative developed with your goals in mind.

Your Business, Your Money

Doing more with fewer resources is a reality for businesses in today's economy. Learn how to survive and thrive through Powered by Community, a community-based business initiative developed with your goals in mind.

Are you ready to be Powered by Community?

Go to PoweredByCommunity.com

If you have an idea or success to share, or if you have identified a business or community need, then you are ready to be a part of Powered By Community. The Powered By Community team is made up of community leaders, people with great ideas, and everyone else who wants to see our community set a solid foundation for the future. You can join the effort right now by visiting our website and calling for more information.
